## Open Face Booths

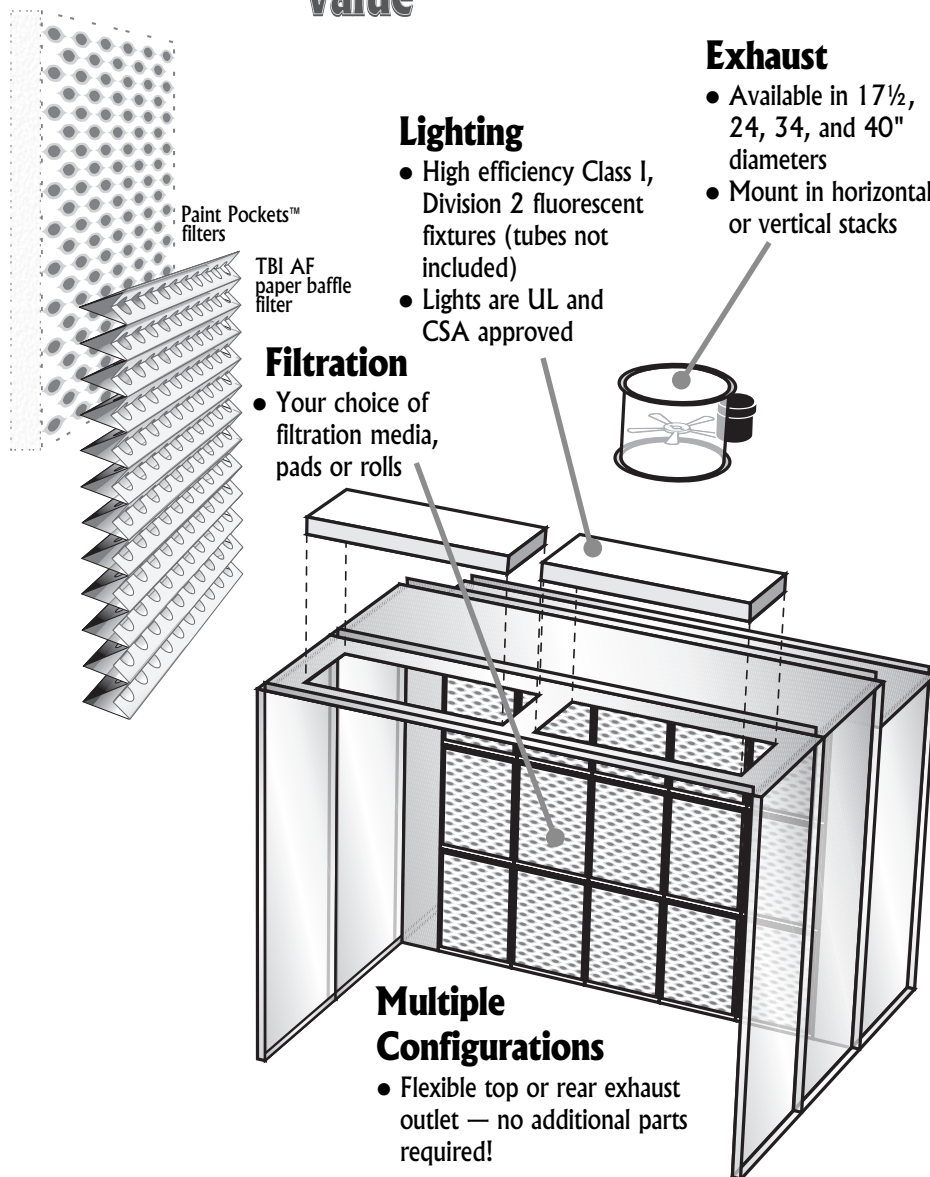

### ProClean™ Open Face Filter Booths

ProClean™ Spray Booths are supplied complete with:

- Class I Division 2 Fluorescent 4-Tube Lighting Fixture(s)\*
  - High Efficiency Exhaust Fan(s)\*
  - TEFC type, 3 Phase Multi-Voltage (208-230/460/60 Hz/ 3 PH and 575/60/3) Electric Exhaust Fan Motor
  - One Complete Set of Filter Media
  - Manometer (Draft Gauge)
  - Top or Rear Exhaust Outlet
- \* For specific number of light fixtures, fan quantity and ducting diameter, consult specifications chart.

### Easy Assembly

The ProClean's tough 18-gauge corrosion resistant panels are designed for fast, easy assembly, while creating a strong, rigid structure. High quality assembly hardware and illustrated assembly instructions are included.

### Lighting

- High efficiency Class I, Division 2 fluorescent fixtures (tubes not included)
- Lights are UL and CSA approved

### Filtration

- Your choice of filtration media, pads or rolls

### Exhaust

- Available in 17½, 24, 34, and 40" diameters
- Mount in horizontal or vertical stacks

### Multiple Configurations

- Flexible top or rear exhaust outlet — no additional parts required!

Your spray booth is an investment that pays many dividends by providing a cleaner painting environment for a better quality finish, a means of increasing productivity, and a superior working environment for your finisher.

As we are continually trying to improve our products, specifications are subject to change without notice.
